

I have read that the new broadcast service known as LPFM could be expanded and that this service could take priority over current FM translator services. I am against this if the station I listen to, KLOVE, will be forced off the air by these PLFMs. I have listened to KLOVE for years. It is a very inspiring and uplifting radio station. I know of a tremendous amount of people in my community, and other areas, that listen to KLOVE. I know of many people who are not able to go to church and this station is a makeshift replacement to church for them. It's commercial-free and for those of us who choose to listen to it, keeps faith and God in the forefront of our thoughts. PLEASE, PLEASE do not allow LPFM stations to push other FM stations like KLOVE off the air. It would be very disappointing, and extremely sad.

With everything going on in the world it's important for people everywhere to be able to have an FM station they can turn to and not be offended, insulted, or worry about what their children will hear. KLOVE IS the station. Thank you for your time.
